Kingsley Onwupeluonye

FULL-STACK DEVELOPER

Lagos, Nigeria • +234 813 287 7795 • kingslex1995@gmail.com
kingsleyonwupeluonye.dev • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience designing, building and improving web applications using TypeScript, JavaScript, React, Next.js, Node.js and Express. Builds responsive interfaces, REST APIs, authentication flows and database-backed features. Applies input validation, error handling, automated testing and clear separation of responsibilities to create maintainable software.

PROFESSIONAL EXPERIENCE

KinglyGames | Independent YouTube Content Creator *Jan 2024 – Dec 2025*

- Planned, recorded, edited and published gaming videos, managing the production process from gameplay capture through final upload.
- Designed custom thumbnails and developed titles, descriptions and metadata to improve content presentation and discoverability.
- Applied YouTube SEO practices and monitored channel analytics to assess content performance, audience engagement and viewing trends.
- Managed channel branding, content organisation and publishing activities independently.

Appen | UHRS Contributor *Feb 2023 – Jan 2025*

- Completed online evaluation tasks through the UHRS platform, following task-specific instructions and quality guidelines.
- Reviewed and assessed digital content and search-related results for relevance and quality where required by individual tasks.
- Worked independently while applying detailed evaluation criteria and maintaining consistency across assigned tasks.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL
Frontend: React, Next.js, React Router, Tailwind CSS, HTML, CSS
Backend: Node.js, Express, REST APIs, session-based authentication
Databases & services: SQLite, Supabase, Firebase
Testing & tools: Vitest, integration testing, Git, GitHub, Vite

SELECTED PROJECTS

Dungeon Dice Duel | **React · TypeScript · Node.js · Express · SQLite · Vitest**

- Designed and built a full-stack turn-based game, developing the React frontend and TypeScript/Express backend with integrated authentication, interactive gameplay, battle management and player statistics.
- Architected frontend and backend functionality for hero selection, battles, game-run management, registration, login, password recovery and persistent player progress.
- Implemented domain logic, service and repository layers, session-based authentication, and database integrity rules for battle and game-run lifecycles; wrote unit and integration tests.

Spiral Sounds | **JavaScript · Node.js · Express · SQLite**

- Built a full-stack vinyl-store application with REST APIs, persistent product data, product search and filtering, and shopping-cart functionality.
- Implemented bcrypt password hashing and session-based authentication, input validation and centralized error handling; added transactional checkout and order history.

Print Forge | **Next.js · React · TypeScript · Tailwind CSS · SQLite**

- Built a database-backed 3D-model catalog with searchable, filterable, sortable and paginated views, using server-side data access for persistent SQLite data.

VanLife | **React · React Router · Firebase**

- Built a responsive van-rental application with browsing and detail pages, registration and login flows, and an authenticated host dashboard; implemented Firestore security rules.

CERTIFICATIONS

Scrimba — Frontend Developer Path (Sep 2026) · Full Stack Developer Path (Aug 2026) · Learn Tailwind CSS (Aug 2026) · Learn React Router (Jul 2026) · Prompt Engineering for Web Developers (Jun 2026) · Learn SQL (May 2026) · Google Developers — Android Development, Google Africa Developer Training Program (Feb 2021)

EDUCATION

University of Ibadan — B.Sc. Food Technology, Second Class Honours (Upper Division) | Dec 2011 – Dec 2016
