PROFILE

Full-stack developer focused on building practical, responsive web applications. Experienced across modern frontend development and backend application development, including responsive interfaces, REST APIs, authentication, databases, and persistent data. Enjoys taking projects from initial idea through development, testing, and deployment with an emphasis on clean, maintainable code and intuitive user experiences.

CORE TECHNOLOGIES

Frontend	React · Next.js · TypeScript · JavaScript · Tailwind CSS
Backend	Node.js · Express · REST APIs · SQLite
Also Familiar With	Supabase · Firebase · Vite · Git · GitHub

SELECTED PROJECTS

Assembly Endgame — React · JavaScript

Interactive word-guessing game featuring game-state management, dynamic UI updates, keyboard interaction, and responsive design.

VanLife — React · React Router

Responsive van-rental application with nested routing, dynamic routes, authentication-related flows, and data-driven views.

Print Forge — React · TypeScript · Supabase

Full-stack printing platform combining a responsive frontend with backend data, authentication, and persistent application state.

Spiral Sounds — React · Node.js · Express · SQLite

Full-stack music application with REST API integration, SQLite persistence, filtering, and a deployed backend.

CERTIFICATION

Scrimba — Full Stack Developer Path

Completed full-stack web development training covering modern JavaScript, React, frontend development, APIs, databases, and full-stack application development.

DEVELOPMENT FOCUS

Building accessible, responsive and maintainable web applications; integrating frontend interfaces with APIs and databases; learning new technologies through hands-on projects; and deploying applications to production.
